for q in test_questions:
    print(f"\nQ: {q}")
    print(f"A: {ask(q)}")
    print("-" * 70)
```

```
======================================================================

Q: What is the return window for electronics?
A: The return window for electronics is 15 days from the date of delivery.
----------------------------------------------------------------------

Q: How long does international shipping take?
A: International shipping takes approximately 7-20 business days, depending on the destination. Specifically, the Inter
Standard shipping option takes 10-20 business days.
----------------------------------------------------------------------

Q: What is covered under the SmartHub X1 warranty?
A: The warranty for the SmartHub X1 covers:

- Manufacturing defects present at the time of purchase
- Hardware failures due to faulty components under normal use
- Display defects (dead pixels above threshold: more than 3 dead pixels)
- Battery capacity below 80% within the warranty period (if applicable)
```

ShopEasy Bot: To install the ShopEasy SmartHub X1, please follow these steps:

1. **Connect to Router**:
   - Use the provided Ethernet cable to connect the SmartHub X1 to your router.

2. **Power Up**:
   - Plug in the 12V/2A power adapter. The LED ring will glow red during boot (this may take 30-60 seconds).

3. **Download the App**:
   - Download the 'ShopEasy Home' app from the App Store or Google Play.

4. **Open the App**:
   - Open the app, tap '+', and select 'SmartHub X1'.

5. **Follow Pairing Wizard**:
   - Follow the in-app pairing wizard. The LED ring will turn blue when connected.

6. **Create Home and Add Rooms**:
   - Create your home and add rooms to start pairing smart devices.

If you have any further questions, feel free to ask!
--------------------------------------------------------------

ShopEasy Bot: The ShopEasy SmartHub X1 is a versatile smart home controller that allows you to:

- Connect and manage all your smart devices from a single interface.
- Support various protocols including Zigbee, Z-Wave, Wi-Fi (2.4 GHz / 5 GHz), and Bluetooth 5.0.
- Integrate with voice assistants like Amazon Alexa, Google Assistant, and Apple HomeKit.

If you have more questions, feel free to ask!
